OUR FOUNDERS

After facing, fighting, and overcoming stage IV colon cancer, Ivelisse Page wanted to reach out to other patients facing the many challenges she encountered through her cancer journey.

After assembling a team of doctors and accumulating extensive research, Ivelisse and her husband, Jimmy, compiled reliable resources to heal the whole person physically, spiritually, mentally and emotionally.

They established Believe Big in 2011 to help families bridge the gap between conventional and complementary medicine for fighting cancer.

The Integrative Cancer Symposium is Believe Big's annual, one-day gathering dedicated to advancing whole-person, evidence-informed cancer care. Scheduled on Saturday, October 17, 2026 in Towson, Maryland and virtually online, the symposium will bring together clinicians, researchers, integrative practitioners, industry partners, survivors, caregivers, and advocates for a powerful day of education, connection, and hope.

Through keynote presentations, expert panels, and community engagement, the symposium explores emerging research, innovative therapies, and practical approaches that support physical, emotional, and spiritual healing. Attendees will engage directly with trusted voices in integrative oncology while connecting with mission-aligned exhibitors and sponsors committed to improving outcomes and quality of life for those impacted by cancer.

END OF YEAR FUNDRAISER

OCTOBER - DECEMBER 2026

Believe Big's End-of-Year Fundraising Campaign is a mission-driven effort to ensure cancer patients and families receive timely advocacy, integrative care support, and hope when they need it most. Funds raised directly support patient advocacy and navigation, financial assistance for integrative oncology therapies not covered by insurance, educational resources, faith-based encouragement, and continued advancement of integrative cancer research, including mistletoe therapy.

This campaign plays a critical role in sustaining Believe Big's ability to respond quickly to patients reaching out during vulnerable moments while also investing in long-term solutions that expand access to compassionate, whole-person cancer care. Through community partnerships, matching gifts, and peer-to-peer fundraising, the campaign invites individuals and organizations to stand alongside patients and help create lasting impact as we prepare for the year ahead.

“After being diagnosed with stage 4 urothelial carcinoma and Gleason 9 prostate cancer in April of 2019, I was given only months to live. Now, with the help of Believe Big, Dr. Steven Johnson, mistletoe integrative therapy, and many prayers, all my scans are clear of cancer, almost six years later.”

PURPOSE IN ACTION

Together, we help organizations move from simply writing checks to creating meaningful, lasting impact—fostering a culture where giving back is shared, personal, and purposeful.

The Cancer Impact Project

This meaningful experience brings teams together, strengthens workplace culture, reinforces shared values, and creates authentic connections within the organization and the broader community.

Cancer Prevention Lunch & Learn

An engaging, personalized educational session designed to equip employees or students with practical, science-based tools to support long-term health and reduce cancer risk. This virtual presentation empowers participants to be proactive rather than reactive about their wellbeing by addressing lifestyle, nutrition, metabolic health, stress, and environmental factors that influence cancer risk.

Led by trusted experts this educational experience provides actionable takeaways that can be implemented immediately, helping your team make informed choices that support vitality, resilience, and whole-person health.
